

KEYSTONE SYMPOSIA

Keystone Symposia on Molecular and Cellular Biology

G Protein-Coupled Receptors: New Insights in Functional Regulation and Clinical Application

Part of the Translational Medicine Series

Sponsored by Pfizer Global Research and Development

May 18 - 23, 2008 • INEC-Ireland's National Events Centre & Resort

Killarney, Ireland

Organizers: Heidi E. Hamm, P. Jeffrey Conn, Jean-Phillippe Pin and Olivier Civelli

www.keystonesymposia.org/8E2

SUNDAY, MAY 18

Keynote Address

Linda Buck, Fred Hutchinson Cancer Research Center

MONDAY, MAY 19

GPCR Conformation

Krzysztof Palczewski, University of Washington
Wayne L. Hubbell, University of California, Los Angeles
Jonathan A. Javitch, Columbia University
Jean-Louis Banères, Centre National de la Recherche Scientifique

Intracellular Signaling

John J.G. Tesmer, University of Michigan
Xia Zhang, University of Saskatchewan
Lan Ma, Functional Genomics & Systems Biology Group
Joan Heller Brown, University of California, San Diego
Brigitte Kieffer, IGBMC

TUESDAY, MAY 20

Interacting Proteins

Susanna Cotecchia, Université de Lausanne
Per Svenningsson, Rockefeller University
Maria A. Diverse-Pierluissi, Mount Sinai School of Medicine
Emiliana Borrelli, University of California, Irvine

Workshop 1 : Promises and Pitfalls in Drug Discovery

Tamas Bartfai, The Scripps Research Institute
Richard Hargreaves, Merck
Roy C. Smith, St. Elizabeth's Medical Center

Deorphanized GPCRs

Stefan Offermanns, University of Heidelberg
Joe Casazza, National Institutes of Health
Hans Bräuner-Osborne, Danish University of Pharmaceutical Sciences

WEDNESDAY, MAY 21

GPCRs in Physiology 1

Kenji Kangawa, National Cardiovascular Center Research Institute
Mark J. Zoller, Senomyx, Inc.
Cornelia (Cori) Bargmann, Rockefeller University
Shuh Narumiya, Kyoto University

Workshop 2 : Can Industry and Academic Scientists Cooperate to Facilitate Drug Discovery?

P. Jeffrey Conn, Vanderbilt University School of Medicine
Linda Brady, National Institutes of Health
Bob Ziven
Steven M. Paul, Lilly Research Laboratories

GPCRs in Physiology 2

Wylie W. Vale, The Salk Institute
Gilbert Vassart, Université Libre de Bruxelles
Masayasu Kojima, Kurume University

THURSDAY, MAY 22

GPCRs in Preclinical Drug Programs

Timothy D. Lovenberg, R.W. Johnson Pharmaceutical Research Institute
Andrew D. Howard, Merck Research Laboratories
Andy Dray, AstraZeneca R&D
Colleen Marie Niswender, University of Washington

Novel GPCR Drugs in the Clinic

Gérard Le Fur, sanofi-aventis
Vincent Mutel, Addex Pharmaceuticals SA
Jilly F. Evans, Amira Pharmaceuticals
Edward F. Nemeth, NPS Pharmaceuticals

FRIDAY, MAY 23

Departure

Contact Us: Keystone Symposia on Molecular and Cellular Biology

221 Summit Place #272 • PO Box 1630 • Silverthorne, CO 80498

Email: info@keystonesymposia.org • www.keystonesymposia.org

Phone: 800-253-0685 (In US & Canada) or 970-262-1230 • Fax: 970-262-1525
